Pieter Jan Pollie

Web & Application Developer

Experience

Full-Stack Developer

Jobtoolz | 2020 – Present

Mainly responsible for the back end and server infrastructure of the SaaS application

Overlay Developer

Freelance | 2020 – Present

Overlay development for esports productions including Team Liquid, WYLDE and more...

Back-end Developer

Bulldots | 2019 – 2020

Responsible for the back-end side of things and the CMS of our clients.

Educations

Full-Stack Developer

Syntra West | 2018 – 2019

Full-stack course which taught me a lot about OOP PHP & Laravel.

Independent Game Developer

Digital Arts & Entertainments, Howest | 2016 – 2018

Bachelor which I didn't finish but learned a lot from coding-wise and which pushed me towards web development.

Accountancy & IT

Burgerschool, Roeselare | 2014 – 2016

The course I followed in secondary school which sparked my passion for software development.
